SERVICEMEN IN POLITICAL FIGHT

In strong contrast to what had happened in elections held in Canada since the last general election in 1940, when servicemen had been used by various political parties, it is pointed out that this will not happen in the coming Federal or Ontario general elections, since the regulations and orders of the armed services are clear on this matter. In other words, the only servicemen who will take part in the political fight in one way or another will be those acting as candidates or officers to take the actual service vote. Servicemen will not be able to actively participate in the political campaign in June or May, in accordance with the regulations and orders which have existed for a long time. In addition, it can be pointed out, in fact of this fact providing rules, yet initial reports reveal that there will not only be a large number of servicemen as candidates, probably already over sixty in number, but the widespread controversy which forced a special session of Canada's Parliament over military reinforcement policies will be one of the principal issues presented on the political platform form across the Dominion.

Local and District

Miss Margaret Fitzsimmons, R.N., visited at the home of her parents last Sunday.

Col. Billy Nichol, of the V.H.G., is home on furlough with his wife and family.

Mrs. L. E. Mazure, of Ottawa has arrived in Delia to spend a few weeks with her mother, Mrs. A. Kinsick.

Mr. Louis Llewellyn, of Calgary, an old South African war veteran, is again visiting with Mr. and Mrs. Pete Thompson.

Miss Isabel Fulton, of the C.W.F.C., is home on furlough with her parents, Mr. and Mrs. J. Y. Fulton.

Messrs. J. A. Williams, Progressive Conservative candidate for Acadia; and L. W. Warwick, are visitors in Delia on Tuesday.

The weather still remains dry with occasional brisk winds, and no rain has fallen in the immediate district up to the present. However, overcast skies at this writing portend much needed moisture.

Mrs. Lloyd Kinsick has left for her home in Hedley, B.C., after spending three weeks with her mother-in-law, Mrs. A. Kinsick.

Mr. and Mrs. R. Stones, accompanied by their younger daughter, Adams, attended the graduation of their daughter, Norma, at Normal School in Calgary on May 10.

Owing to pressure on our space various items are held over.

Wild Mustard Control

Wild mustard, variously called Ontario Mustard, Yellow Mustard, Charlock, etc., is making its appearance in many districts in Alberta. Summerville, it is not difficult in controlling this weed, but two methods of attack are suggested by H. J. Mackay, Superintendent of Weed Control for the Alberta Department of Agriculture. The first method consists of heavy seeding with the use of fertilizer. Butler may be seeded 24 inches deep, at the rate of 2 bushels per acre in well prepared land, and fertilizer applied at the rate of 30 lbs. per acre. Anomalous Theobald 11-48 is recommended on thickly sown, and A.P. 16-20 on the grey-washed type. The shallow seeding, the heavy rate of seeding and the fertilizer, all tend to speed up early development of the grain crop and help it to crowd out the mustard seedlings.

A second very effective method is to seed heavily and about 18 inches deep, preferably with fertilizer. The kernels are washed until the first sprout is about three-quarters of an inch long (on the kernel, not above the ground). The field is then reseeded at a depth of 2 inches to kill all mustard plants which have germinated. The barley crop will then develop fast enough to keep ahead of further mustard seedlings which may start to grow.

Card of Thanks

The Victory Club wishes to thank all who helped make the recent play, "Descent Dubbs," a success; also Mr. Repp and cast, to whom most of its success was due.

John Bracken — The Man

John Bracken, the son of a farmer Ephraim Bracken and his wife, Alberta, was born in a log cabin in Elliville, Leeds County, Ontario, on the 22nd of June, 1883.

Here, briefly chronicled, are the main events in the life of John Bracken:

- 1888 - Student at Brockville Collegiate, Ontario.
- 1902-5 Student at the Ontario Agricultural College, Guelph. He won four scholarships, the Governor-General's Medal, two top honours student and class medalist. Here, too, he met Alice Wylie Bruce.
- 1906 - Young Bracken went to Winnipeg as representative of the Seeds Branch of the Dominion Department of Agriculture.
- 1907 - In the neighbouring Province of Saskatchewan, John Bracken became Superintendent of Fairs and Farmers' Institutes and Secretary of the Provincial Livestock Association.
- 1910 - John Bracken was appointed Professor of Field Husbandry at the new University of Saskatchewan. He took the first train to Guelph, Ontario, married Alice Wylie Bruce. Four sons were born — three of whom are now on Active Service with the Navy, Army and Air Force.
- 1920 - Already the author of two books on agriculture, John Bracken became President of the Manitoba Agricultural College.
- 1922 - John Bracken accepted the leadership of the Progressive Farmer Government, was sworn in as Prime Minister of Manitoba.
Now began the political life of the most consistently successful political leader the Empire has produced in this century. Since that day — from 1922 to 1942 — John Bracken has never been defeated.
- 1932 - The Liberals joined John Bracken's former government.
- 1940 - All the other political parties, including the C.C.F. and Social Creditors, threw in their fortunes with the great leader forming a wartime Coalition Manitoba government.
- 1942 - The year of John Bracken's great decision. John Bracken, the Progressive, accepted the national leadership of a great reurgent people's party — The Progressive Conservatives.

Individual Rewards Are as Old as Man

The rewards of individual initiative are not a development of the present system or of the present Industrial Age. They are as old as man himself.

The first man born on Earth was a tiller of the soil, the second a keeper of sheep; but Genesis does not say it was God's land or the nation's sheep. Both were the property of individual men.

1,449,624 Canadian families own their own homes today.
553,765 are planning to repair or improve after the war.
420,000 others are planning to build or buy.

To day

MORE THAN EVER BEFORE...
YOU NEED THESE EXTRA QUALITIES WHEN YOU BUY

Tires

- Fourway traction for greater grip.
- Compensation tread for longer wear.
- Solid-rolling tread design for greater safety.
- Tough, rubber Superflex compound body for longer life.
- High tensile steel beads for extra strength.
- Goodyear quality, skill and experience for long, trouble-free mileage.

You get them all in Goodyear's new "rubberized" tire. If you ever neglect — it's too late for new ones.

FOR SAFETY'S SAKE

See the GENERAL MOTORS DEALER for these Safety Services

- ✓ BRAKES
- ✓ LIGHTS
- ✓ HORN
- ✓ STEERING
- ✓ TIRES

SAFETY SERVICE was never more important than it is today. Not only is Spring traffic heavy, but many vehicles are over-age and in poor mechanical condition after a hard, punishing Winter. Take the first step towards safe driving by seeing the General Motors dealer for a complete Safety Check-up. Let him put your brakes into sound, efficient shape. Let him overhaul your steering, test your wheel alignment and tires. Let him check your lights, windshield wiper and glass. Remember — the life of your vehicle and the safety of yourself, your passengers and other road users all depend largely upon the good mechanical condition of your car or truck.

PLAY SAFE—

Heavier Seeding

Recent investigations show that wherever the soil contains good reserves of moisture, heavier seeding will produce a higher yield. Heavier seeding, too, helps to control weeds. To sow generously is therefore good practice.
